## Overview

|              |                                                                                                        |
|--------------|--------------------------------------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                                                 |
| Target:      | IGF2BP3                                                                                                |
| Reactivity:  | Human                                                                                                  |
| Host:        | Rabbit                                                                                                 |
| Clonality:   | Polyclonal                                                                                             |
| Conjugate:   | This IGF2BP3 antibody is un-conjugated                                                                 |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunocytochemistry (ICC) |

## Product Details

|                   |                                                                                                                                                                                      |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:          | Polyclonal Antibody to Insulin Like Growth Factor 2 mRNA Binding Protein 3 (IGF2BP3)                                                                                                 |
| Immunogen:        | RPL617Hu01Recombinant Insulin Like Growth Factor 2 mRNA Binding Protein 3 (IGF2BP3)                                                                                                  |
| Isotype:          | IgG                                                                                                                                                                                  |
| Specificity:      | The antibody is a rabbit polyclonal antibody raised against IGF2BP3. It has been selected for its ability to recognize IGF2BP3 in immunohistochemical staining and western blotting. |
| Cross-Reactivity: | Mouse, Rat                                                                                                                                                                           |
| Purification:     | Antigen-specific affinity chromatography followed by Protein A affinity chromatography                                                                                               |

## Target Details

|---------|---------|
| Target: | IGF2BP3 |
|---------|---------|

## Target Details

|                   |                                                                                                                                               |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Alternative Name: | IGF2BP3 ( <a href="#">IGF2BP3 Products</a> )                                                                                                  |
| Background:       | MP-3, IMP3, KOC1, VICKZ3, CT98, IGF II mRNA Binding Protein 3, Cancer/Testis Antigen 98, KH domain-containing protein overexpressed in cancer |
| UniProt:          | <a href="#">O00425</a>                                                                                                                        |

## Application Details

|                    |                                                                                                                                                                                                                                                                                                                                     |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Western blotting: 0.01-2 µg/mL,Immunohistochemistry: 5-20 µg/mL,Immunocytochemistry: 5-20 µg/mL,Optimal working dilutions must be determined by end user.                                                                                                                                                                           |
| Comment:           | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |
| Restrictions:      | For Research Use only                                                                                                                                                                                                                                                                                                               |

## Handling

|                    |                                                                                                                                                                 |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                                          |
| Concentration:     | 0.5 mg/mL                                                                                                                                                       |
| Buffer:            | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.                                                                                                     |
| Preservative:      | Sodium azide                                                                                                                                                    |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                                          |
| Storage:           | 4 °C,-20 °C                                                                                                                                                     |
| Storage Comment:   | Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles. |
