## Overview

|              |                                                                                                           |
|--------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                                                    |
| Target:      | IL1F9                                                                                                     |
| Reactivity:  | Mouse                                                                                                     |
| Host:        | Mouse                                                                                                     |
| Clonality:   | Monoclonal                                                                                                |
| Conjugate:   | This IL1F9 antibody is un-conjugated                                                                      |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                   |                                                                                                                                                                                 |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:          | Monoclonal Antibody to Interleukin 1 Family, Member 9 (IL1F9)                                                                                                                   |
| Immunogen:        | RPL621Mu01Recombinant Interleukin 1 Family, Member 9 (IL1F9)                                                                                                                    |
| Clone:            | D6                                                                                                                                                                              |
| Specificity:      | The antibody is a mouse monoclonal antibody raised against IL1F9. It has been selected for its ability to recognize IL1F9 in immunohistochemical staining and western blotting. |
| Cross-Reactivity: | Human                                                                                                                                                                           |
| Purification:     | Protein A + Protein G affinity chromatography                                                                                                                                   |

## Target Details

## Target Details

|                   |                                                                                                                                                             |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Alternative Name: | IL1F9 ( <a href="#">IL1F9 Products</a> )                                                                                                                    |
| Background:       | IL-1F9, IL36g, IL-1H1, IL-1RP2, IL1E, IL1H1, IL1RP2, Interleukin 36, Gamma, Interleukin-1 Homolog 1, Interleukin-1 epsilon, Interleukin 1-Related Protein 2 |
| UniProt:          | <a href="#">Q8R460</a>                                                                                                                                      |

## Application Details

|                    |                                                                                                                                                                                                                                                                                                                                     |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Western blotting: 0.2-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.                                                                                                                                                                         |
| Comment:           | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |
| Restrictions:      | For Research Use only                                                                                                                                                                                                                                                                                                               |

## Handling

|                    |                                                                                                                                                                 |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                                          |
| Concentration:     | 1 mg/mL                                                                                                                                                         |
| Buffer:            | 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.                                                                                                |
| Preservative:      | ProClin, Sodium azide                                                                                                                                           |
| Precaution of Use: | This product contains ProClin and Sodium azide: POISONOUS AND HAZARDOUS SUBSTANCES which should be handled by trained staff only.                               |
| Storage:           | 4 °C, -20 °C                                                                                                                                                    |
| Storage Comment:   | Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles. |
