# **Application Details**

Application Notes:	Western blotting: 0.2-2 $\mu$ g/mL,1:250-2500 Immunohistochemistry: 5-20 $\mu$ g/mL,1:25-100
	Immunocytochemistry: 5-20 µg/mL,1:25-100 Optimal working dilutions must be determined by
	end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated
	thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious
	degradation and precipitation were observed. The loss rate is less than 5% within the expiration
	date under appropriate storage condition.
Restrictions:	For Research Use only
