

Datasheet for ABIN7641898 **anti-LDHB antibody**

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	LDHB
Reactivity:	Rat
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This LDHB antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunocytochemistry (ICC)

Product Details

Purpose:	Monoclonal Antibody to Lactate Dehydrogenase B (LDHB)
Immunogen:	RPB698Ra01 Recombinant Lactate Dehydrogenase B (LDHB)
Clone:	15#
Specificity:	The antibody is a mouse monoclonal antibody raised against LDHB. It has been selected for its ability to recognize LDHB in immunohistochemical staining and western blotting.
Purification:	Protein A + Protein G affinity chromatography, Antigen-specific affinity chromatography followed by Protein A affinity chromatography

Target Details

Target:	LDHB
Alternative Name:	LDHB (LDHB Products)

Target Details

Background: LDH-B, LDH-H, Renal carcinoma antigen NY-REN-46

UniProt: [P42123](#)

Pathways: [Warburg Effect](#)

Application Details

Application Notes: Western blotting: 0.5-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: 1 mg/mL

Buffer: PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.
