

#### Datasheet for ABIN7642272

# anti-LDLR antibody

#### Overview

Quantity:	100 μL
Target:	LDLR
Reactivity:	Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This LDLR antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunocytochemistry (ICC)

#### **Product Details**

Purpose:	Polyclonal Antibody to Low Density Lipoprotein Receptor (LDLR)
Immunogen:	RPB008Ra01Recombinant Low Density Lipoprotein Receptor (LDLR)
Isotype:	IgG
Specificity:	The antibody is a rabbit polyclonal antibody raised against LDLR. It has been selected for its ability to recognize LDLR in immunohistochemical staining and western blotting.
Cross-Reactivity:	Mouse
Purification:	Antigen-specific affinity chromatography followed by Protein A affinity chromatography
Target Details	
Target:	LDLR

## Target Details

Alternative Name:	LDLR (LDLR Products)
Background:	FH, FHC, Familial Hypercholesterolemia
UniProt:	P35952
Pathways:	Hepatitis C, Lipid Metabolism

### **Application Details**

Application Notes:	Western blottin:g: 0.5-5 μg/mL,Immunohistochemistry: 5-50 μg/mL,Immunocytochemistry: 5-
	50 μg/mL,Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated
	thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious
	degradation and precipitation were observed. The loss rate is less than 5% within the expiration
	date under appropriate storage condition.
Restrictions:	For Research Use only

#### Handling

Format:	Liquid
Concentration:	500 μg/mL
Buffer:	0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.
Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C,-20 °C
Storage Comment:	Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.
