

Datasheet for ABIN7643429
anti-Neurogranin antibody

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Neurogranin (NRGN)
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Neurogranin antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC)

Product Details

Purpose:	Monoclonal Antibody to Neurogranin (NRGN)
Immunogen:	RPA404Hu01Recombinant Neurogranin (NRGN)
Clone:	C1
Specificity:	The antibody is a mouse monoclonal antibody raised against NRGN. It has been selected for its ability to recognize NRGN in immunohistochemical staining and western blotting.
Cross-Reactivity:	Mouse, Pig, Rat
Purification:	Protein A + Protein G affinity chromatography

Target Details

Target:	Neurogranin (NRGN)
Alternative Name:	NRGN (NRGN Products)

Target Details

Background: Ng, NEUG, Protein Kinase C Substrate RC3

UniProt: [Q92686](#)

Application Details

Application Notes: Western blotting: 0.01-2 µg/mL, Immunohistochemistry: 5-30 µg/mL, Optimal working dilutions must be determined by end user.

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: 1 mg/mL

Buffer: 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.
