

Datasheet for ABIN7644059
anti-Pepsinogen A antibody

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Pepsinogen A
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Pepsinogen A antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC)

Product Details

Purpose:	Monoclonal Antibody to Pepsinogen A (PGA)
Immunogen:	RPA165Hu01Recombinant Pepsinogen A (PGA)
Clone:	E3
Specificity:	The antibody is a mouse monoclonal antibody raised against PGA. It has been selected for its ability to recognize PGA in immunohistochemical staining and western blotting.
Cross-Reactivity:	Pig
Purification:	Protein A + Protein G affinity chromatography

Target Details

Target:	Pepsinogen A
Abstract:	Pepsinogen A Products

Target Details

Background: PGA5, PG-A, Pepsinogen 5 Group I, Pepsinogen-5, Pepsin A-5

UniProt: [P00790](#)

Application Details

Application Notes: Western blotting: 0.5-3 µg/mL, Immunohistochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: 1 mg/mL

Buffer: 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.
