## Target Details

Background: GIII-SPLA2, sPLA2-III, Group 3 secretory phospholipase A2, Group III secretory phospholipase A2, Phosphatidylcholine 2-acylhydrolase 3

UniProt: [Q8BZT7](#)

## Application Details

Application Notes: Western blotting: 0.5-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only
