## Overview

|              |                                                                                                           |
|--------------|-----------------------------------------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                                                    |
| Target:      | Plastin 3 (PLS3)                                                                                          |
| Reactivity:  | Human                                                                                                     |
| Host:        | Mouse                                                                                                     |
| Clonality:   | Monoclonal                                                                                                |
| Conjugate:   | This Plastin 3 antibody is un-conjugated                                                                  |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                   |                                                                                                                                                                               |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:          | Monoclonal Antibody to Plastin 3 (PLS3)                                                                                                                                       |
| Immunogen:        | RPH365Hu02Recombinant Plastin 3 (PLS3)                                                                                                                                        |
| Clone:            | C10                                                                                                                                                                           |
| Specificity:      | The antibody is a mouse monoclonal antibody raised against PLS3. It has been selected for its ability to recognize PLS3 in immunohistochemical staining and western blotting. |
| Cross-Reactivity: | Pig                                                                                                                                                                           |
| Purification:     | Protein A + Protein G affinity chromatography                                                                                                                                 |

## Target Details

|         |                  |
|---------|------------------|
| Target: | Plastin 3 (PLS3) |
|---------|------------------|

## Target Details

Alternative Name: PLS3 ([PLS3 Products](#))

Background: T-PLASTIN

UniProt: [P13797](#)

## Application Details

Application Notes: Western blotting: 0.5-2 µg/mL, Immunohistochemistry: 5-20 µg/mL, Immunocytochemistry: 5-20 µg/mL, Optimal working dilutions must be determined by end user.

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 mg/mL

Buffer: 0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.
