

Datasheet for ABIN7644783 **anti-Progesterone antibody**

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Progesterone
Reactivity:	Various Species
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Progesterone antibody is un-conjugated
Application:	ELISA, Immunohistochemistry (Frozen Sections) (IHC (fro)), Chemiluminescence Immunoassay (CLIA), Immunocytochemistry (ICC), Immunoprecipitation (IP)

Product Details

Purpose:	Monoclonal Antibody to Progesterone (PG)
Immunogen:	CPA459Ge11BSA Conjugated Progesterone (PG)
Clone:	2-C3
Specificity:	The antibody is a mouse monoclonal antibody raised against PG. It has been selected for its ability to recognize PG in immunohistochemical staining and western blotting.
Purification:	Protein A + Protein G affinity chromatography, Antigen-specific affinity chromatography followed by Protein A affinity chromatography

Target Details

Target:	Progesterone
Abstract:	Progesterone Products

Target Details

Target Type:	Hormone
Background:	P4, Pregn-4-Ene-3,20-Dione

Application Details

Application Notes:	Western blotting: 0.01-2 µg/mL,Immunohistochemistry: 5-20 µg/mL,Immunocytochemistry: 5-20 µg/mL,Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Concentration:	1 mg/mL
Buffer:	0.01M PBS, pH 7.4, containing 0.05 % Proclin-300, 50 % glycerol.
Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C,-20 °C
Storage Comment:	Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.
