## **Target Details**

Background:	SLC5A1, NAGT, Solute Carrier Family 5 Member 1, High affinity sodium-glucose cotransporter,		
	Na(+)/glucose cotransporter 1		
UniProt:	P13866		
Application Details			
Application Notes:	Western blotting: 0.01-2 μg/mL,Immunohistochemistry: 5-20 μg/mL,Immunocytochemistry: 5-		
	20 μg/mL,Optimal working dilutions must be determined by end user.		
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated		
	thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious		
	degradation and precipitation were observed. The loss rate is less than 5% within the expiration		
	date under appropriate storage condition.
