# Application Details

Application Notes:	Western blotting: 0.5-3 $\mu$ g/mL,Immunohistochemistry: 5-30 $\mu$ g/mL,Immunocytochemistry: 5-
	30 μg/mL,Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated
	thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious
	degradation and precipitation were observed. The loss rate is less than 5% within the expiration
	date under appropriate storage condition.
