**Recombinant anti-CFTR antibody (CF®640R)**[Go to Product page](#)

## Overview

|                |                                                                                                         |
|----------------|---------------------------------------------------------------------------------------------------------|
| Quantity:      | 100 µL                                                                                                  |
| Target:        | CFTR                                                                                                    |
| Reactivity:    | Human, Mouse                                                                                            |
| Host:          | Mouse                                                                                                   |
| Antibody Type: | Recombinant Antibody                                                                                    |
| Clonality:     | Monoclonal                                                                                              |
| Conjugate:     | This CFTR antibody is conjugated to CF®640R                                                             |
| Application:   | Immunohistochemistry (IHC), Immunohistochemistry (Formalin-fixed Paraffin-embedded Sections) (IHC (fp)) |

## Product Details

|                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | CFTR (Cystic Fibrosis Transmembrane Conductance Regulator)(rCFTR/1342), CF640R conjugate                                                                                                                                                                                                                                                                                                                                                                    |
| Immunogen:       | Recombinant full-length human CFTR protein                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Clone:           | RCFTR-1342                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Isotype:         | IgG1, kappa                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Characteristics: | Recognizes a protein of 165-170 kDa, identified as cystic fibrosis transmembrane conductance regulator (CFTR). CFTR is composed of two membrane-spanning domains (MSD), two nucleotide-binding domains (NBD), and an R domain. It is structurally similar to multidrug resistance (Mdr1) protein and both are members of the superfamily of ATP-binding cassette (ABC) transporters, also known as traffic ATPases, which are implicated in the movement of |

## Product Details

various substrates. The CFTR protein is a small conductance adenosine 3', 5'-cyclic monophosphate (cAMP)-activated chloride ion channel found in the apical membranes of epithelia within the pancreas, airway, intestine, bile duct, sweat gland, and male genital ducts. CFTR is a valuable marker of human pancreatic duct cell development and differentiation. Primary antibodies are available purified, or with a selection of fluorescent CF® Dyes and other labels. CF® Dyes offer exceptional brightness and photostability. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors.

## Target Details

|                   |                                                                                                                                                                                                                                                                                                |

| Molecular Weight: | 165-170 kDa                                                                                                                                                                                                                                                                                    |
| Gene ID:          | 1080                                                                                                                                                                                                                                                                                           |
| UniProt:          | <a href="#">P13569</a>                                                                                                                                                                                                                                                                         |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Comment:           | Positive Control: MOLT-4 cells. Pancreas, Kidney or Placenta.      |
| Restrictions:      | For Research Use only                                              |

## Handling

|                |                              |
|----------------|------------------------------|
| Format:        | Liquid                       |
| Concentration: | 0.1 mg/mL                    |
| Buffer:        | PBS, 0.1 % BSA, 0.05 % azide |

## Handling
