## Overview

|                      |                                                                                                                                |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                                         |
| Target:              | DBN1                                                                                                                           |
| Binding Specificity: | AA 150-281                                                                                                                     |
| Reactivity:          | Human                                                                                                                          |
| Host:                | Mouse                                                                                                                          |
| Clonality:           | Monoclonal                                                                                                                     |
| Conjugate:           | This DBN1 antibody is un-conjugated                                                                                            |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunohistochemistry (Formalin-fixed Paraffin-embedded Sections) (IHC (fp)) |

## Product Details

|                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Drebrin 1 (DBN1)(DBN1/3393)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Immunogen:       | Recombinant fragment (aa 150-281) of human DBN1 protein                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Clone:           | DBN1-3393                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Isotype:         | IgG1, kappa                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Characteristics: | Drebrins (developmentally regulated brain proteins) are cytoplasmic proteins that bind F-actin in the brain and are involved in cell migration, extension of neuronal processes and plasticity of dendrites. There are three isoforms: two embryonic types (E1 and E2), and an adult type (A), generated by alternative RNA splicing from a single Drebrin gene. Drebrins are expressed mainly in brain neurons but are also found in skeletal muscle, heart, placenta, pancreas and kidney. Drebrin has been designated as a marker of the dendritic spine. Decreases in Drebrin |

## Product Details

levels in the brain have been associated with Alzheimer's disease and Down syndrome. Primary antibodies are available purified, or with a selection of fluorescent CF® Dyes and other labels. CF® Dyes offer exceptional brightness and photostability. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors.

## Target Details

|                   |                                                                                                                                                                                                                          |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | DBN1                                                                                                                                                                                                                     |
| Alternative Name: | Drebrin 1                                                                                                                                                                                                                |

## Application Details

|                    |                                                                                                           |
|--------------------|-----------------------------------------------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator.                                        |
| Comment:           | Positive Control: Brain neurons. Also found in the heart, placenta, skeletal muscle, kidney and pancreas. |
| Restrictions:      | For Research Use only                                                                                     |

## Handling

|                |                               |
|----------------|-------------------------------|
| Format:        | Liquid                        |
| Concentration: | 0.2 mg/mL                     |
| Buffer:        | PBS, 0.05 % BSA, 0.05 % azide |
| Preservative:  | Sodium azide                  |

# Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C                                                                                                                   |
| Storage Comment:   | Stable at room temperature or 37°C for 7 days.<br>Store at 2 to 8°C. Protect fluorescent conjugates from light         |
| Expiry Date:       | 24 months                                                                                                              |
