## anti-Tyrosinase-Related Protein 1 antibody (AA 257-377)

[Go to Product page](#)

### Overview

|                      |                                                                                                         |
|----------------------|---------------------------------------------------------------------------------------------------------|
| Quantity:            | 50 µL                                                                                                   |
| Target:              | Tyrosinase-Related Protein 1 (TYRP1)                                                                    |
| Binding Specificity: | AA 257-377                                                                                              |
| Reactivity:          | Human                                                                                                   |
| Host:                | Mouse                                                                                                   |
| Clonality:           | Monoclonal                                                                                              |
| Conjugate:           | This Tyrosinase-Related Protein 1 antibody is un-conjugated                                             |
| Application:         | Immunohistochemistry (IHC), Immunohistochemistry (Formalin-fixed Paraffin-embedded Sections) (IHC (fp)) |

### Product Details

|                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:         | Tyrosinase-Related Protein-1 (TYRP-1) (Melanoma Marker)(TYRP1/3284)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Immunogen:       | A recombinant fragment (around aa 257-377) of human TYRP1 protein                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Clone:           | TYRP1-3284                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Isotype:         | IgG2b, kappa                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Characteristics: | <p>Reacts with a 75 kDa melanocyte-specific gene product, identified as Tyrosinase-related protein-1 (TRP-1). It is involved in melanin synthesis. TRP1 is present on the melanosomal membranes of melanoma, normal melanocytes and nevi. Recent evidence suggests that TRP-1 is involved in maintaining stability of tyrosinase protein and modulating its catalytic activity. TRP-1 is also involved in maintenance of melanosome ultrastructure and affects melanocyte proliferation and cell death. Primary antibodies are available purified, or with a selection of</p> |

## Product Details

fluorescent CF® Dyes and other labels. CF® Dyes offer exceptional brightness and photostability. Note: Conjugates of blue fluorescent dyes like CF®405S and CF®405M are not recommended for detecting low abundance targets, because blue dyes have lower fluorescence and can give higher non-specific background than other dye colors.

## Target Details

|                   |                                                                                                                                                                                                                                                                                        |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | Tyrosinase-Related Protein 1 (TYRP1)                                                                                                                                                                                                                                                   |
| Alternative Name: | Tyrosinase Related Protein-1                                                                                                                                                                                                                                                           |
| Background:       | Synonyms: 5, 6 dihydroxyindole 2 carboxylic acid oxidase, 6-dihydroxyindole-2-carboxylic acid oxidase, Associated with iris pigmentation, CAS2, Catalase B (CATB), DHICA oxidase, Glycoprotein75 (GP75), Melanoma antigen gp75<br>Gene Symbol: TYRP1<br>Tissue Expression: Melanocytes |
| Molecular Weight: | 75 kDa                                                                                                                                                                                                                                                                                 |
| Gene ID:          | 7306                                                                                                                                                                                                                                                                                   |
| UniProt:          | <a href="#">P17643</a>                                                                                                                                                                                                                                                                 |

## Application Details

|                    |                                                                                             |
|--------------------|---------------------------------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator.                          |
| Comment:           | Positive Control: SK-MEL-23, SK-MEL-19, SK-MEL-30, SK-MEL-37 cells. Human Skin or Melanoma. |
| Restrictions:      | For Research Use only                                                                       |

## Handling

|                  |                                                |
|------------------|------------------------------------------------|
| Format:          | Liquid                                         |
| Concentration:   | 1 mg/mL                                        |
| Buffer:          | PBS, no BSA, no azide                          |
| Preservative:    | Without preservative                           |
| Storage:         | -20 °C                                         |
| Storage Comment: | Stable at room temperature or 37°C for 7 days. |

## Handling

---

Store at -20 °C. Protect fluorescent conjugates from light
