## anti-NERP-2 antibody (Carboxyfluorescein (CFS))

[Go to Product page](#)

### Overview

|              |                                                                |
|--------------|----------------------------------------------------------------|
| Quantity:    | 100 µL                                                         |
| Target:      | NERP-2                                                         |
| Reactivity:  | Human                                                          |
| Host:        | Rabbit                                                         |
| Clonality:   | Polyclonal                                                     |
| Conjugate:   | This NERP-2 antibody is conjugated to Carboxyfluorescein (CFS) |
| Application: | ELISA                                                          |

### Product Details

|               |                                                 |
|---------------|-------------------------------------------------|
| Immunogen:    | Synthetic peptide corresponding to human NERP-2 |
|               | Type of Immunogen: Synthetic peptide            |
| Isotype:      | IgG                                             |
| Specificity:  | Human NERP-2.                                   |
| Purification: | Purified                                        |

### Target Details

|                   |                                                                                  |
|-------------------|----------------------------------------------------------------------------------|
| Target:           | NERP-2                                                                           |
| Alternative Name: | NERP-2 / Neuroendocrine Regulatory Peptide-2 ( <a href="#">NERP-2 Products</a> ) |

Application Details

|                    |                                                                                                                                 |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Approved: ELISA                                                                                                                 |
|                    | Usage: The applications listed have been tested for the unconjugated form of this product.<br>Other forms have not been tested. |
| Comment:           | Target Species of Antibody: Human                                                                                               |
| Restrictions:      | For Research Use only                                                                                                           |

Handling

|                  |                                                                                                                                                                |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                                                         |
| Concentration:   | Lot specific                                                                                                                                                   |
| Buffer:          | Liquid                                                                                                                                                         |
| Handling Advice: | Aliquot to Avoid repeated freezing and thawing. .Sensitive to light.                                                                                           |
| Storage:         | 4 °C,-20 °C                                                                                                                                                    |
| Storage Comment: | May be stored at 4°C for short-term only. Aliquot to avoid freeze-thaw cycles. Store at -20°C.<br>Aliquots are stable for at least 1 year. Protect from light. |
