Datasheet for ABIN797557  
**anti-dsDNA antibody**

### Overview

Quantity:	500 µL
Target:	dsDNA
Reactivity:	Chemical
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This dsDNA antibody is un-conjugated
Application:	Immunohistochemistry (IHC), ELISA

### Product Details

Immunogen:	Double Stranded DNA
Clone:	11B6
Isotype:	IgM kappa
Specificity:	Shows 100 % reactivity to calf dsDNA and 5 % to calf ssDNA
Purification:	Tissue Culture Supernatant

### Target Details

Target:	dsDNA
Alternative Name:	DNA Ds ( <a href="#">dsDNA Products</a> )
Target Type:	Chemical

## Application Details

---

Application Notes: ELISA, IHC

---

Restrictions: For Research Use only

---

## Handling

---

Format: Lyophilized

---

Reconstitution: Distilled water

---

Handling Advice: Avoid repeat freeze-thaw cycles.

---

Storage: 4 °C/-20 °C

---

Storage Comment: Long term: -20°C, Short term: +4°C, Avoid freeze-thaw cycles.
