Target Details

Background:	Synonyms: BESC1, ENaCb, SCNEB, ENaCbβ, Amiloride-sensitive sodium channel subunit β, β-NaCH, Epithelial Na^{+}) channel subunit β, β-ENaC, Nonvoltage-gated sodium channel 1 subunit β, SCNN1B Background: Sodium permeable non-voltage-sensitive ion channel inhibited by the diuretic amiloride. Mediates the electrodiffusion of the luminal sodium (and water, which follows osmotically) through the apical membrane of epithelial cells. Plays an essential role in electrolyte and blood pressure homeostasis, but also in airway surface liquid homeostasis, which is important for proper clearance of mucus. Controls the reabsorption of sodium in kidney, colon, lung and sweat glands. Also plays a role in taste perception.
