

Datasheet for ABIN880895

**anti-ABHD14B antibody (AA 122-210) (Cy5)**[Go to Product page](#)

## Overview

|                      |                                                                                                         |
|----------------------|---------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                  |
| Target:              | ABHD14B                                                                                                 |
| Binding Specificity: | AA 122-210                                                                                              |
| Reactivity:          | Human                                                                                                   |
| Host:                | Rabbit                                                                                                  |
| Clonality:           | Polyclonal                                                                                              |
| Conjugate:           | This ABHD14B antibody is conjugated to Cy5                                                              |
| Application:         | Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |

## Product Details

|                       |                                                             |
|-----------------------|-------------------------------------------------------------|
| Immunogen:            | KLH conjugated synthetic peptide derived from human ABHD14B |
| Isotype:              | IgG                                                         |
| Predicted Reactivity: | Human, Mouse, Rat, Dog, Cow, Pig                            |
| Purification:         | Purified by Protein A.                                      |

## Target Details

|                   |                                                                                         |
|-------------------|-----------------------------------------------------------------------------------------|
| Target:           | ABHD14B                                                                                 |
| Alternative Name: | ABHD14B ( <a href="#">ABHD14B Products</a> )                                            |
| Background:       | Synonyms: Abhydrolase domain containing 14B, Abhydrolase domain containing protein 14B, |

## Target Details

CCG1 interacting factor B, Cell cycle gene 1 interacting factor B, CIB, MGC15429, OTTHUMP00000212469, ABHEB\_HUMAN.

Background: ABHD14B has hydrolase activity towards p-nitrophenyl butyrate (in vitro). It may activate transcription. There are 2 isoforms produced by alternative splicing.

Gene ID: 84836

## Application Details

Application Notes: IF(IHC-P) 1:50-200  
IF(IHC-F) 1:50-200  
IF(ICC) 1:50-200

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 µg/µL

Buffer: Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.

Expiry Date: 12 months
