Datasheet for ABIN881043

**anti-ACBD4 antibody (AA 31-110) (Alexa Fluor 555)**

## Overview

|                      |                                                                                                                                   |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                                            |
| Target:              | ACBD4                                                                                                                             |
| Binding Specificity: | AA 31-110                                                                                                                         |
| Reactivity:          | Human                                                                                                                             |
| Host:                | Rabbit                                                                                                                            |
| Clonality:           | Polyclonal                                                                                                                        |
| Conjugate:           | This ACBD4 antibody is conjugated to Alexa Fluor 555                                                                              |
| Application:         | Western Blotting (WB), Immunofluorescence (Paraffin-embedded Sections) (IF (p)),<br>Immunofluorescence (Cultured Cells) (IF (cc)) |

## Product Details

|                       |                                                           |
|-----------------------|-----------------------------------------------------------|
| Immunogen:            | KLH conjugated synthetic peptide derived from human ACBD4 |
| Isotype:              | IgG                                                       |
| Predicted Reactivity: | Human, Mouse, Rat, Dog, Horse                             |
| Purification:         | Purified by Protein A.                                    |

## Target Details

|                   |                                                                                         |
|-------------------|-----------------------------------------------------------------------------------------|
| Target:           | ACBD4                                                                                   |
| Alternative Name: | ACBD4 ( <a href="#">ACBD4 Products</a> )                                                |
| Background:       | Synonyms: ACBD 4, Acyl CoA binding domain containing protein 4, Acyl coenzyme A binding |

## Target Details

domain containing 4, ACBD4\_HUMAN.

Background: ACBD4 is a member of the acyl-coenzyme A binding domain containing protein family. ACBD4 contains 1 ACB (acyl-CoA-binding) domain. There are three isoforms. Its function is unknown.

Gene ID: 79777

## Application Details

Application Notes: IF(IHC-P) 1:50-200  
IF(IHC-F) 1:50-200  
IF(ICC) 1:50-200

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 µg/µL

Buffer: Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.

Expiry Date: 12 months
