Datasheet for ABIN884313 anti-Azurocidin antibody (AA 51-150) (Cy3)

-online.com antibodies

Overview

| Quantity:            | 100 μL  |
|----------------------|---|
| Target:              | Azurocidin (AZU1)   |
| Binding Specificity: | AA 51-150   |
| Reactivity:          | Human   |
| Host:                | Rabbit  |
| Clonality:           | Polyclonal  |
| Conjugate:           | This Azurocidin antibody is conjugated to Cy3   |
| Application:         | Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |

## Product Details

| Immunogen:            | KLH conjugated synthetic peptide derived from human Cationic antimicrobial protein 37 |
|-----------------------|---|
| lsotype:              | lgG   |
| Predicted Reactivity: | Human   |
| Purification:         | Purified by Protein A.  |
| Target Details        |   |
| Target:               | Azurocidin (AZU1)   |
| Alternative Name:     | Azurocidin (AZU1 Products)  |

| Background:    | Synonyms: Azu 1, Azu1, Azurocidin, CAP37, CAP7_HUMAN, cationic antimicrobial protein 37, |

|   | Cationic antimicrobial protein CAP37, HBP, Heparin binding protein, Heparin-binding protein,<br>HUMAZUR.   |
|---|--|
|   | Background: This is a neutrophil granule-derived antibacterial and monocyte- and fibroblast-<br>specific chemotactic glycoprotein. Binds heparin. The cytotoxic action is limited to many<br>species of Gram-negative bacteria, this specificity may be explained by a strong affinity of the<br>very basic N-terminal half for the negatively charged lipopolysaccharides that are unique to the<br>Gram-negative bacterial outer envelope. It may play a role in mediating recruitment of<br>monocytes in the second wave of inflammation. Has antibacterial activity against the Gram-<br>nagative bacterium P.aeruginosa, this activity is inhibited by LPS from P.aeruginosa. |
| Gene ID:  | 566  |
| Application Details   |  |
| Application Notes:  | IF(IHC-P) 1:50-200   |
|   | IF(IHC-F) 1:50-200   |
|   | IF(ICC) 1:50-200   |
|   |  |
