| Quantity:            | 100 μL   |
|----------------------|--|
| Target:              | CIDEC  |
| Binding Specificity: | AA 101-200   |
| Reactivity:          | Human, Mouse, Rat  |
| Host:                | Rabbit   |
| Clonality:           | Polyclonal   |
| Conjugate:           | This CIDEC antibody is conjugated to AbBy Fluor® 350   |
| Application:         | Western Blotting (WB), Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |

#### **Product Details**

| Immunogen:            | KLH conjugated synthetic peptide derived from human CIDEC  |  |
|-----------------------|--|--|
| Isotype:              | IgG  |  |
| Specificity:          | Due to the similarity of this protein with CIDEA in Mouse and Rat, there is a chance that this antibody will react with this protein in those two species based on homology. |  |
| Cross-Reactivity:     | Human, Mouse, Rat  |  |
| Predicted Reactivity: | Pig  |  |
| Purification:         | Purified by Protein A.   |  |

## Target Details

| Target:             | CIDEC   |  |  |
|---------------------|---|--|--|
| Alternative Name:   | CIDEC (CIDEC Products)  |  |  |
| Background:         | Synonyms: CIDE3, FPLD5, FSP27, CIDE-3, Cell death activator CIDE-3, Cell death-inducing DFFA        |  |  |
|                     | like effector protein C, Fat-specific protein FSP27 homolog, CIDEC                                  |  |  |
|                     | Background: Binds to lipid droplets and regulates their enlargement, thereby restricting lipolysis  |  |  |
|                     | and favoring storage. At focal contact sites between lipid droplets, promotes directional net       |  |  |
|                     | neutral lipid transfer from the smaller to larger lipid droplets. The transfer direction may be     |  |  |
|                     | driven by the internal pressure difference between the contacting lipid droplet pair. Its role in   |  |  |
|                     | neutral lipid transfer and lipid droplet enlargement is activated by the interaction with PLIN1.    |  |  |
|                     | May act as a CEBPB coactivator in the white adipose tissue to control the expression of a           |  |  |
|                     | subset of CEBPB downstream target genes, including SOCS1, SOCS3, TGFB1, TGFBR1, ID2 and             |  |  |
|                     | XDH. When overexpressed in preadipocytes, induces apoptosis or increases cell susceptibility        |  |  |
|                     | to apoptosis induced by serum deprivation or TGFB treatment. As mature adipocytes, that             |  |  |
|                     | express high CIDEC levels, are quite resistant to apoptotic stimuli, the physiological significance |  |  |
|                     | of its role in apoptosis is unclear. May play a role in the modulation of the response to osmotic   |  |  |
|                     | stress by preventing NFAT5 to translocate into the nucleus and activate its target genes            |  |  |
|                     | expression.   |  |  |
| Gene ID:            | 63924   |  |  |
| UniProt:            | Q96AQ7  |  |  |
| Application Details |   |  |  |
| Application Notes:  | IF(IHC-P) 1:50-200  |  |  |
|                     | IF(IHC-F) 1:50-200  |  |  |
|                     | IF(ICC) 1:50-200  |  |  |
| Restrictions:       | For Research Use only   |  |  |
| Handling            |   |  |  |
| Format:             | Liquid  |  |  |
| Concentration:      | 1 μg/μL   |  |  |
| Buffer:             | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 and         |  |  |
|                     | 50 % Glycerol.  |  |  |
| Preservative:       | ProClin   |  |  |
|                     |   |  |  |

## Handling

| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
|--------------------|--|
| Storage:           | -20 °C   |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                  |
| Expiry Date:       | 12 months  |
