Target Details

cassette, subfamily C, member 10, ATP-binding cassette sub-family C member 10, EST182763, mFLJ00002, MRP7, MRP7_HUMAN, Multidrug resistance associated protein 7, Multidrug resistance-associated protein 7, SIMRP7, Mrp7A.

Background: The protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, and White). This ABC full-transporter is a member of the MRP subfamily which is involved in multi ATP-dependent transporter probably involved in cellular detoxification through lipophilic anion extrusion.
