## Datasheet for ABIN907627 anti-NLRP4 antibody (AA 351-450) (Alexa Fluor 350)

Overview

| Quantity:            | 100 µL                                                                                                  |  |
|----------------------|---------------------------------------------------------------------------------------------------------|--|
| Target:              | NLRP4                                                                                                   |  |
| Binding Specificity: | AA 351-450                                                                                              |  |
| Reactivity:          | Human, Rat                                                                                              |  |
| Host:                | Rabbit                                                                                                  |  |
| Clonality:           | Polyclonal                                                                                              |  |
| Conjugate:           | This NLRP4 antibody is conjugated to Alexa Fluor 350                                                    |  |
| Application:         | Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |  |

## Product Details

| Immunogen:            | KLH conjugated synthetic peptide derived from human NALP4                                   |  |
|-----------------------|---------------------------------------------------------------------------------------------|--|
| lsotype:              | lgG                                                                                         |  |
| Specificity:          | This antibody will detect multiple forms of NALP4, including the A, C and E Mouse variants. |  |
| Cross-Reactivity:     | Human, Rat                                                                                  |  |
| Predicted Reactivity: | Mouse,Pig,Horse                                                                             |  |
| Purification:         | Purified by Protein A.                                                                      |  |
| Target Details        |                                                                                             |  |
| Target:               | NLRP4                                                                                       |  |

| Target Details      |                                                                                                                    |  |
|---------------------|--------------------------------------------------------------------------------------------------------------------|--|
| Alternative Name:   | NALP4 (NLRP4 Products)                                                                                             |  |
| Background:         | Synonyms: NACHT, LRR and PYD domains-containing protein 4, Cancer/testis antigen 58,                               |  |
|                     | CT58, PAAD and NACHT-containing protein 2, PAN2, PYRIN and NACHT-containing protein 2,                             |  |
|                     | PYRIN-containing APAF1-like protein 4, PYPAF4, Ribonuclease inhibitor 2, NLRP4, NALP4,                             |  |
|                     | RNH2                                                                                                               |  |
|                     | Background: May be involved in inflammation and recognition of cytosolic pathogen-associated                       |  |
|                     | molecular patterns (PAMPs) not intercepted by membrane-bound receptors. Acts as a negative                         |  |
|                     | regulator of the type I interferon signaling pathway by serving as an adapter to promote DTX4-                     |  |
|                     | mediated ubiquitination of activated TBK1, and its subsequent degradation. Suppresses NF-                          |  |
|                     | kappaB induction by the cytokines TNFA and IL1B, suggesting that it operates at a point of                         |  |
|                     | convergence in these two cytokine signaling pathways.                                                              |  |
| Gene ID:            | 147945                                                                                                             |  |
| UniProt:            | Q96MN2                                                                                                             |  |
| Pathways:           | Inflammasome                                                                                                       |  |
| Application Details |                                                                                                                    |  |
| Application Notes:  | IF(IHC-P) 1:50-200                                                                                                 |  |
|                     | IF(IHC-F) 1:50-200                                                                                                 |  |
|                     | IF(ICC) 1:50-200                                                                                                   |  |
| Restrictions:       | For Research Use only                                                                                              |  |
| Handling            |                                                                                                                    |  |
| Format:             | Liquid                                                                                                             |  |
| Concentration:      | 1 µg/µL                                                                                                            |  |
| Buffer:             | Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and                       |  |
|                     | 50 % Glycerol.                                                                                                     |  |
| Preservative:       | ProClin                                                                                                            |  |
| Precaution of Use:  | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |  |
| Storage:            | -20 °C                                                                                                             |  |
| Storage Comment:    | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                  |  |
|                     |                                                                                                                    |  |
