Datasheet for ABIN908959 anti-DCAF6 antibody (AA 245-350) (Alexa Fluor 350)

-online.com antibodies

Overview

Quantity:	100 µL
Target:	DCAF6
Binding Specificity:	AA 245-350
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This DCAF6 antibody is conjugated to Alexa Fluor 350
Application:	Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p))

Product Details

Immunogen:	KLH conjugated synthetic peptide derived from human NRIP
Isotype:	IgG
Predicted Reactivity:	Human,Mouse,Rat,Dog,Cow,Pig,Horse,Rabbit
Purification:	Purified by Protein A.

Target Details

Target:	DCAF6
Alternative Name:	NRIP (DCAF6 Products)
Background:	Synonyms: Androgen receptor complex associated protein, ARCAP, IQ mot and WD repeats 1,

	IQWD1v MSTP055, Nuclear receptor interaction protein, RP4 745I14.1, DCAF6_HUMAN.
	Background: WD-repeat proteins are a large family of eukaryotic proteins coordinating multi-
	protein complex assemblies. Their role has been implicated in multiple cellular processes
	including signal transduction, transcriptional regulation, cell cycle control and apoptosis. NRIP
	is a novel 860a.a nuclear protein consisting of seven conserved WD40 domains and one NLS
	motif. It binds to androgen and glucocorticoid receptors and up-regulates their transcriptional
	activity, thereby functioning as a nuclear receptor co-activator. Role of NRIP has been
	implicated in cell growth and also in cervical and prostrate cancer, thus indicating a potential
	therapeutic intervention. Northern Blot analysis detects a high expression of NRIP in skeletal
	muscle and testis and low expression in heart, prostrate and adrenal gland.
Gene ID:	8204
Application Details	
Application Notes:	IF(IHC-P) 1:50-200
	IF(IHC-F) 1:50-200
	IF(ICC) 1:50-200
Restrictions:	For Research Use only
Handling
