

Datasheet for ABIN920727
anti-Keratan Sulfate antibody

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Keratan Sulfate (KS)
Reactivity:	Rat, Mouse, Human, Amphibian, Chicken, Cow
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Keratan Sulfate antibody is un-conjugated
Application:	Western Blotting (WB), Flow Cytometry (FACS), ELISA, Immunohistochemistry (IHC), Immunocytochemistry (ICC), Dot Blot (DB), Immunoprecipitation (IP), Affinity Purification (AP)

Product Details

Immunogen:	Embryonic proteoglycans
Clone:	373E3
Isotype:	IgM

Target Details

Target:	Keratan Sulfate (KS)
Alternative Name:	Keratan Sulfate (KS Products)

Application Details

Application Notes:	Flow cytometry: Use at a 1:100 - 1:500 dilution. ELISA: Use at a 1:100 - 1:1,000 dilution. Dot blot: Use at a 1:100 - 1:1,000 dilution. Western blot: Use at a 1:500 - 1:2,000 dilution.
--------------------	---

Application Details

Immunohistochemistry: Use at a 1:100 - 1:500 dilution. Immunocytochemistry: Use at a 1:100 - 1:1,000 dilution. Immunoprecipitation: Use at a 1:100 - 1:500 dilution.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: 100 µL of ascites fluid.

Storage: 4 °C
