Datasheet for ABIN925547
UltraPure Sterile Water

Overview

Quantity: 1 L

Product Details

Purification: UltraPure Sterile Water consists of highly polished pharmaceutical grade deionized water processed using sterile conditions This product was aseptically filtered through a Millipore 0.22 micron filter into clean, pre-sterilized containers. The product was tested on trypticase soy agar for 24 hours, 48 hours and 72 hours and was found to be negative for bacteria.

Sterility: Aseptic filtered

Application Details

Application Notes: Application Note: Suitable for molecular immunology, molecular biology and nucleic acid methodologies, when applicable. Visit our web site at www.rockland-inc.com for methods using this and other buffers.

Comment: Synonyms: deionized Water, H2O
Background: UltraPure Sterile Water is suitable for applicatoins where high quality sterile was is required. For more sensitive applicatoins such as RNA work, please see Rockland Molecular Biology Grade UltraPure Water.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Stabilizer: None

Handling

Preservative: Without preservative

Storage: RT,4 °C

Expiry Date: 6 months
