

Datasheet for ABIN927979

anti-Apolipoprotein F antibody (C-Term)[Go to Product page](#)**1** Image

Overview

Quantity:	100 µL
Target:	Apolipoprotein F (APOF)
Binding Specificity:	C-Term
Reactivity:	Human, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Apolipoprotein F antibody is un-conjugated
Application:	Western Blotting (WB)

Product Details

Immunogen:	Apof antibody was raised in rabbit using the C terminal of Apof as the immunogen
Cross-Reactivity:	Rat (Rattus)
Purification:	Purified

Target Details

Target:	Apolipoprotein F (APOF)
Alternative Name:	Apof (APOF Products)
Background:	Apof is a minor apolipoprotein that associates with LDL. Apof inhibits cholesteryl ester transfer protein (CETP) activity and appears to be an important regulator of cholesterol transport. Apof also associates to a lesser degree with VLDL, Apo-AI and Apo-AII. Synonyms: Polyclonal Apof antibody, Anti-Apof antibody, apolipoprotein F antibody, Apof antibody.

Application Details

Application Notes:	WB: 0.2-1 µg/mL Optimal conditions should be determined by the investigator.
Comment:	Apof Blocking Peptide, catalog no. 33R-5175, is also available for use as a blocking control in assays to test for specificity of this Apof antibody
Restrictions:	For Research Use only

Handling

Format:	Lyophilized
Concentration:	Lot specific
Buffer:	Lyophilized powder. Add 50 µL of distilled water. Final antibody concentration is 1 mg/mL in PBS buffer.
Handling Advice:	Avoid repeated freeze/thaw cycles.
Storage:	4 °C/-20 °C
Storage Comment:	Store at 4 °C, following reconstitution, aliquot and store at -20 °C.
