

Datasheet for ABIN934480 **Candida albicans Protein**

[Go to Product page](#)

Overview

Quantity:	1 mg
Target:	Candida albicans
Origin:	Candida albicans
Source:	Yeast (Candida albicans)
Protein Type:	Native

Product Details

Characteristics:	Purified Candida albicans protein Protein Source: Candida albicans
Purity:	Partially pure

Target Details

Target:	Candida albicans
Abstract:	Candida albicans Products
Target Type:	Species

Background: Candida albicans is a diploid fungus (a form of yeast) and a causal agent of opportunistic oral and genital infections in humans. C. albicans is commensal and is among the gut flora, the many organisms that live in the human mouth and gastrointestinal tract. Under normal circumstances, C. albicans lives in 80 % of the human population with no harmful effects, although overgrowth results in candidiasis.

Description: Candida albicans.

Application Details

Application Notes: Each Investigator should determine their own optimal working dilution for specific applications.

Restrictions: For Research Use only

Handling

Buffer: 50 mM CO₃ buffer, pH 9.2.

Precaution of Use: There is no intact *C. albicans* present in this product, however, generally accepted good laboratory practices appropriate to biological reagents should still be employed when handling this product.

Handling Advice: Avoid repeated freeze/thaw cycles.

Storage: -80 °C

Storage Comment: Aliquot and store at -70 °C.
