## Overview

|                      |                                                 |
|----------------------|-------------------------------------------------|
| Quantity:            | 0.4 mL                                          |
| Target:              | ZNF620                                          |
| Binding Specificity: | AA 72-102, N-Term                               |
| Reactivity:          | Human                                           |
| Host:                | Rabbit                                          |
| Clonality:           | Polyclonal                                      |
| Application:         | Western Blotting (WB), Enzyme Immunoassay (EIA) |

## Product Details

|                             |                                                                                                        |
|-----------------------------|--------------------------------------------------------------------------------------------------------|
| Immunogen:                  | KLH conjugated synthetic peptide between 72-102 amino acids from the N-terminal region of human ZNF620 |
| Isotype:                    | Ig Fraction                                                                                            |
| Specificity:                | This antibody detects ZNF620 (N-term).                                                                 |
| Cross-Reactivity (Details): | Species reactivity (tested): Human                                                                     |
| Purification:               | Protein A column followed by peptide affinity purification                                             |

## Target Details

|                   |                                                                                         |
|-------------------|-----------------------------------------------------------------------------------------|
| Target:           | ZNF620                                                                                  |
| Alternative Name: | ZNF620 ( <a href="#">ZNF620 Products</a> )                                              |
| Background:       | ZNF620 may be involved in transcriptional regulation. Synonyms: Zinc finger protein 620 |

## Target Details

|                 |                           |
|-----------------|---------------------------|
| Gene ID:        | 253639                    |
| NCBI Accession: | <a href="#">NP_787084</a> |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | 0.25 mg/mL                                                                                                             |
| Buffer:            | PBS with 0.09 % (W/V) sodium azide                                                                                     |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid repeated freezing and thawing.                                                                                   |
| Storage:           | 4 °C/-20 °C                                                                                                            |
| Storage Comment:   | Store at 2 - 8 °C for up to six months or (in aliquots) at -20 °C for longer.                                          |
