antibodies

## Datasheet for ABIN958612 anti-Ascorbate Oxidase antibody (Biotin)

Overview

01011010	
Quantity:	1 mL
Target:	Ascorbate Oxidase (AO)
Reactivity:	Pumpkin
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Ascorbate Oxidase antibody is conjugated to Biotin
Application:	ELISA, Western Blotting (WB), Immunofluorescence (IF), Immunohistochemistry (IHC)
Product Details	
Immunogen:	Cucurbita species Ascorbate oxidase
	Type of Immunogen: Purified protein
Specificity:	Cucurbita Ascorbate Oxidase. The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: immunoelectrophoresis, cross-immunoelectrop horesis, single radial immunodiffusion (Ouchterlony), block titration, ELISA, immunoblotting and enzyme inhibition. Cross-reactivity Cross-reactivities against enzymes of other sources may occur but have not been determined.
Purification:	Ion exchange chromatography
Target Details	
Target:	Ascorbate Oxidase (AO)

Target Details		
Alternative Name:	Ascorbate Oxidase (AO Products)	
Application Details		
Application Notes:	Approved: ELISA, IF, IHC, WB	
	Usage: This product is intended for use in precipitating and non-precipitating antibody-binding assays (such as e.g., ELISA and Western blotting and immunofluorescence or histochemical techniques). The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested.	
Restrictions:	For Research Use only	
Handling		
Format:	Lyophilized	
Reconstitution:	Sterile distilled water 1 ml	
Concentration:	Lot specific	
Buffer:	Lyophilized from PBS, pH 7.2	
Handling Advice:	Avoid repeat freeze-thaw cycles.	
Storage:	4 °C,-20 °C	
Storage Comment:	Long term: -20°C Short term: +4°C. Avoid repeat freeze-thaw cycles.
