Datasheet for ABIN958837

anti-Nucleoside Monophosphate Kinase antibody (Biotin)

Overview

Quantity:	1 mL
Target:	Nucleoside Monophosphate Kinase
Reactivity:	Cow
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Nucleoside Monophosphate Kinase antibody is conjugated to Biotin
Application:	Western Blotting (WB), Immunofluorescence (IF), ELISA, Immunohistochemistry (IHC)

Product Details

Immunogen:	Bovine liver Nucleoside monophosphate kinase
	Type of Immunogen: Purified protein
Specificity:	Bovine Nucleoside Monophosphate Kinase. The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: immunoelectrophoresis, cross-immunoelectrophoresis, single radial immunodiffusion (Ouchterlony), block titration, ELISA, immunoblotting and enzyme inhibition. Cross-reactivity Cross-reactivities against enzymes of other sources may occur but have not been determined.
Purification:	Ion exchange chromatography

Target Details

Target:	Nucleoside Monophosphate Kinase
---------	---------------------------------

Target Details

Abstract: [Nucleoside Monophosphate Kinase Products](#)

Application Details

Application Notes: Approved: ELISA, IF, IHC, WB

Usage: This product is intended for use in precipitating and non-precipitating antibody-binding assays (such as e. g., ELISA and Western blotting and immunofluorescence or histochemical techniques). The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested.

Restrictions: For Research Use only

Handling

Format: Lyophilized

Reconstitution: Sterile distilled water 1 ml

Concentration: Lot specific

Buffer: Lyophilized from PBS, pH 7.2

Handling Advice: Avoid repeat freeze-thaw cycles.

Storage: 4 °C, -20 °C

Storage Comment: Long term: -20°C
Short term: +4°C. Avoid repeat freeze-thaw cycles.
