Datasheet for ABIN958849

anti-Phosphotransacetylase antibody (Biotin)

Overview

Quantity:	1 mL
Target:	Phosphotransacetylase
Reactivity:	Clostridium kluyveri
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Phosphotransacetylase antibody is conjugated to Biotin
Application:	ELISA, Western Blotting (WB), Immunofluorescence (IF), Immunohistochemistry (IHC)

Product Details

Immunogen:	Clostridium kluyveri Phosphotransacetylase
	Type of Immunogen: Purified protein
Specificity:	Clostridium kluyveri Phosphotransacetylase. The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: immunoelectrophoresis, cross-immunoelectrophoresis, single radial immunodiffusion (Ouchterlony), block titration, ELISA, immunoblotting and enzyme inhibition. Cross-reactivity Cross-reactivities against enzymes of other sources may occur but have not been determined.
Purification:	Ion exchange chromatography

Target Details

Target:	Phosphotransacetylase
---------	-----------------------

Target Details

Abstract: [Phosphotransacetylase Products](#)

Application Details

Application Notes: Approved: ELISA, IF, IHC, WB

Usage: This product is intended for use in precipitating and non-precipitating antibody-binding assays (such as e. g., ELISA and Western blotting and immunofluorescence or histochemical techniques). The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested.

Restrictions: For Research Use only

Handling

Format: Lyophilized

Reconstitution: Sterile distilled water 1 ml

Concentration: Lot specific

Buffer: Lyophilized from PBS, pH 7.2

Handling Advice: Avoid repeat freeze-thaw cycles.

Storage: 4 °C, -20 °C

Storage Comment: Long term: -20°C
Short term: +4°C. Avoid repeat freeze-thaw cycles.
