Datasheet for ABIN965602

anti-Asparaginase antibody (N-Term)

Overview

Quantity:	0.1 mg
Target:	Asparaginase (ASPG)
Binding Specificity:	N-Term
Reactivity:	Soybean
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Asparaginase antibody is un-conjugated
Application:	Immunohistochemistry (IHC)

Product Details

Immunogen:	Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of soybean (Glycine max) L-asparaginase
Purification:	Purified by antigen-specific affinity chromatography.

Target Details

Target:	Asparaginase (ASPG)
Alternative Name:	ASPG (ASPG Products)
Background:	ASPG(L-asparaginase) acts in asparagine catabolism but also in the final steps of protein and cyanophycin degradation via hydrolysis of a range of isoaspartyl dipeptides L-asparaginase contains heterotetramer of two alpha and two beta chains. The beta subunit is responsible for the nucleophile hydrolase activity.

Application Details

Application Notes: ELISA, Western blotting: 1 µg/ml for 2hrs.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: This antibody is stored in PBS, 50% glycerol

Preservative: Sodium azide

Precaution of Use: This product contains sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C
