Datasheet for ABIN966224

anti-GRHL3 antibody (N-Term)

1 Publication

Overview

Quantity:	0.1 mg
Target:	GRHL3
Binding Specificity:	N-Term
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This GRHL3 antibody is un-conjugated
Application:	Immunohistochemistry (IHC)

Product Details

Immunogen: Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to N-terminal residues of human GRHL3 (Grainyhead-like protein 3 homolog)

Target Details

Target: GRHL3

Alternative Name: GRHL3 ([GRHL3 Products](#))

Background: GRHL3 (Grainyhead-like protein 3 homolog) may function as a transcription factor. GRHL3 is a homodimer, it also forms heterodimers with GRHL1 and GRHL2. GRHL3 is expressed in brain, colon, pancreas, placenta and kidney. Isoform 1 is expressed in lung and tonsil. Isoform 2 is prostate-specific. GRHL3 belongs to the grh/CP2 family and Grainyhead subfamily.
Synonyms: SOM, TFCP2L4

Application Details

Restrictions: For Research Use only

Handling

Storage: 4 °C
