

Datasheet for ABIN966883  
**anti-YHEN antibody (C-Term)**

[Go to Product page](#)

1 Publication

## Overview

Quantity:	0.1 mg
Target:	YHEN
Binding Specificity:	C-Term
Reactivity:	Helicobacter pylori
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This YHEN antibody is un-conjugated
Application:	Immunohistochemistry (IHC)

## Product Details

Immunogen:	Polyclonal antibody produced in rabbits immunizing with a synthetic peptide corresponding to C-terminal residues of Bacteria Helicobacter pylori Polysaccharide Deacetylase
------------	---

## Target Details

Target:	YHEN
Alternative Name:	Polysaccharide Deacetylase ( <a href="#">YHEN Products</a> )
Background:	Polysaccharide Deacetylase contains CDA1 which is predicted xylanase/chitin deacetylase [Carbohydrate transport and metabolism] and domain of Polysacc_deac_1, Polysaccharide deacetylase. Polysaccharide Deacetylase functions in biosynthesis of surface polysaccharides and lipopolysaccharides. The function proposed based on presence of conserved amino acid motif, structural feature or limited homology, putative enzyme.

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Storage: 4 °C
