Goat anti-Rabbit IgG (Chain gamma), (Heavy & Light Chain) Antibody

Go to Product pag

1 Publication

Overview	
Quantity:	2 mg
Target:	IgG
Binding Specificity:	Chain gamma, Heavy & Light Chain
Reactivity:	Rabbit
Host:	Goat
Application:	Immunoassay (IA)
Product Details	
Immunogen:	Purified Rabbit IgG, whole molecule
Specificity:	Based on IEP, this antibody reacts with: heavy (gamma) chains on rabbit IgG, light chains on all rabbit immunoglobulins
No Cross-Reactivity:	Human, Mouse (Murine), Cow (Bovine)
Purification:	Affinity purified using solid phase Rabbit IgG (H and L)
Purity:	> 95 % based on SDS-PAGE
Sterility:	0.2 µm filtered
Target Details	
Target:	IgG
Abstract:	IgG Products
Target Type:	Antibody

Application Details

Application Notes:	This antibody is suitable for all immunoassay applications.
	The optimal working dilution should be determined by the investigator.
Comment:	Country of Origin: Goat serum was obtained from healthy animals of US origin and under the
	care of a registered veterinarian.
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Concentration:	4.5 mg/mL
Buffer:	10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Preservative:	Sodium azide
Precaution of Use:	WARNING: Reagents contain sodium azide. Sodium azide is very toxic if ingested or inhaled.
	Avoid contact with skin, eyes, or clothing. Wear eye or face protection when handling. If skin or
	eye contact occurs, wash with copious amounts of water. If ingested or inhaled, contact a
	physician immediately. Sodium azide yields toxic hydrazoic acid under acidic conditions. Dilute
	azide-containing compounds in running water before discarding to avoid accumulation of
	potentially explosive deposits in lead or copper plumbing.
Storage:	4 °C
